Cyber Capital to renounce a potential merger and clearing the way for future growth

Amsterdam, 4 March, 2021 – Cyber Capital has renounced a potential merger with Icoinic Capital. Cyber Capital, which marks the upcoming fifth anniversary of its successful cryptocurrency fund, has cleared the way for independent future growth.

Cyber Capital would like to clarify that the company has refrained from a potential merger with Icoinic Capital due to diverging views on a potential future collaboration. Cyber Capital continues to be very well positioned in providing excellent customer service and superior investment returns for its investors through its cryptocurrency fund.

The track record of its cryptocurrency fund, which was launched nearly five years ago (April 2016) as one of the first funds of its kind, continues to generate outstanding long-term performance compared to relevant benchmarks (BTC/CRIX). In addition, Cyber Capital plans to expand its market leadership in the cryptocurrency investment space. For that purpose, the company plans a forthcoming market expansion to enable future growth and strengthen its footprint.

Justin Bons, Founder and CEO of Cyber Capital: “We have been successfully growing our cryptocurrency fund capabilities for nearly five years, and now we are in the process of initiating an international expansion to further scale our business and drive sustainable growth.”

The experienced Cyber Capital team is currently composed of Justin Bons (Founder and CEO), Dax Nagtegaal (Client Manager), Zeb Lelie (Head of Research), and Zev de Zeeuw (Quantitative Analyst).

Cyber Capital is a leading crypto investment company based in Amsterdam (Netherlands) with a successful track record in generating exceptional returns for a long-term investment horizon. The team combines a crypto-native expertise with a honed investment strategy to create smart investment opportunities in a digital economy.
