

Open Application Internship

About Us

Cyber Capital, founded in 2016 and based in Amsterdam, is a registered investment firm committed to generating superior returns for its investors through an actively managed crypto-assets portfolio with a long-term investment horizon. We combine established crypto investment expertise with traditional investment processes to bridge the gap between digital investment opportunities and investors looking to gain exposure to cryptocurrencies. The digital assets space is a fast-moving sector, yet with a small dedicated community. At Cyber Capital, you will be able to work with like-minded people who embrace and understand the technology and are in it for the long run.
